may purchase a noncalcium enriched product for a particular resident if he determines that the calcium-rich product may interfere with the proper treatment and care of the resident. Simply, it encourages milk production in the state I guess. I introduced it as a bill, and Senator Jensen, Chairman of the Health and Human Services, thought I should do it as a resolution because it doesn't force anybody to do anything. And so I'd ask...that's the purpose of the resolution.

SPEAKER BROMM: Thank you, Senator Hartnett. You've heard the opening. I see no lights for discussion, Senator. Yes, I do. Senator Wehrbein.

SENATOR WEHRBEIN: Mr. President, members, I better not pass up this chance of promotion of milk because that's what some of this is about; at least I know calcium-rich. There's other things but milk is important and it happens to be important to me. So thank you, Senator Hartnett.

SPEAKER BROMM: Thank you, Senator Wehrbein. Is there any further discussion? Senator Hartnett, you're recognized to close, and he waives closing. The question then is the adoption of LR 74. All in favor please vote aye, and opposed nay. Please record.

CLERK: 37 ayes, 0 nays, Mr. President, on the adoption of LR 74.

SPEAKER BROMM: LR 74 is adopted, and while the Legislature is in session and capable of transacting business, I propose to sign and do sign LR 74. Members or, Mr. Clerk, do you have items to read into the record?

CLERK: I do, Mr. President, thank you.
